Lotte Village has many exciting events on the go. Over 100 attractions, machines, and toys are just waiting to be discovered. We perform many different theatre plays every day, bringing many popular Gadgetville residents together on stage. On warm summer days, you can also just lay back on the beach sand and splash around in the sea.

4 **The Internet Discovery Tower** is inhabited by tiny little internet men. They can't be seen by the naked eye, but under a magnifying glass, you can see the tiny men from down below. The higher the floor, the faster and more agile the internet men living there!

6 **Jaak's House** can be found up a tree and is a real bachelor pad. The situation will probably change, though, as Jaak is becoming a bridegroom this summer, but until then, you can still enjoy the ascetic lifestyle in Jaak's house.

8 **The Rabbits' House** is a house of strange tricks and illusions. From the cellar to the chimney, this house is full of excitement and discovery. In the planetarium, your worldview will expand, and you will start to learn about our universe. A fun planetarium show is available in both Estonian and Latvian!

21 Behind **Giovanni's house** you can find the Gadgetville Theatre. In Giovanni's house is the inventor Giovanni's living room, which has a pleasant creative atmosphere and where you can listen to exciting news on the radio that Giovanni invented.

24 **The Pigs' House** is a splendid, safe place where you can find anything that you might have lost in Lotte Village. And, if children have unexpectedly lost their parents, they will be taken by the friendly staff at Lotte Village to Helmi to wait for everyone to find each other again. In the Pigs' House, there is a shady corner for babies and their parents who need a bit of quiet in order to feed or to change nappies.

26 **Klaus's Story Ground** is a lovely little theatre square where the old travelling dog Klaus tells his exciting travel stories.

29 **Lotte's House** is a house of games and play. You can play with Lotte's own toys in her room, watch and perform in theatre productions, play school, and of course, slide down the slide from Lotte's bedroom straight into her playroom.
